

Sub-component 2.3: Environmentally Sound Management of equipment, stocks and wastes containing or contaminated by PCBs in national electricity companies of Mediterranean countries

Project Manager: Tatiana Hema MEDPOL Officer

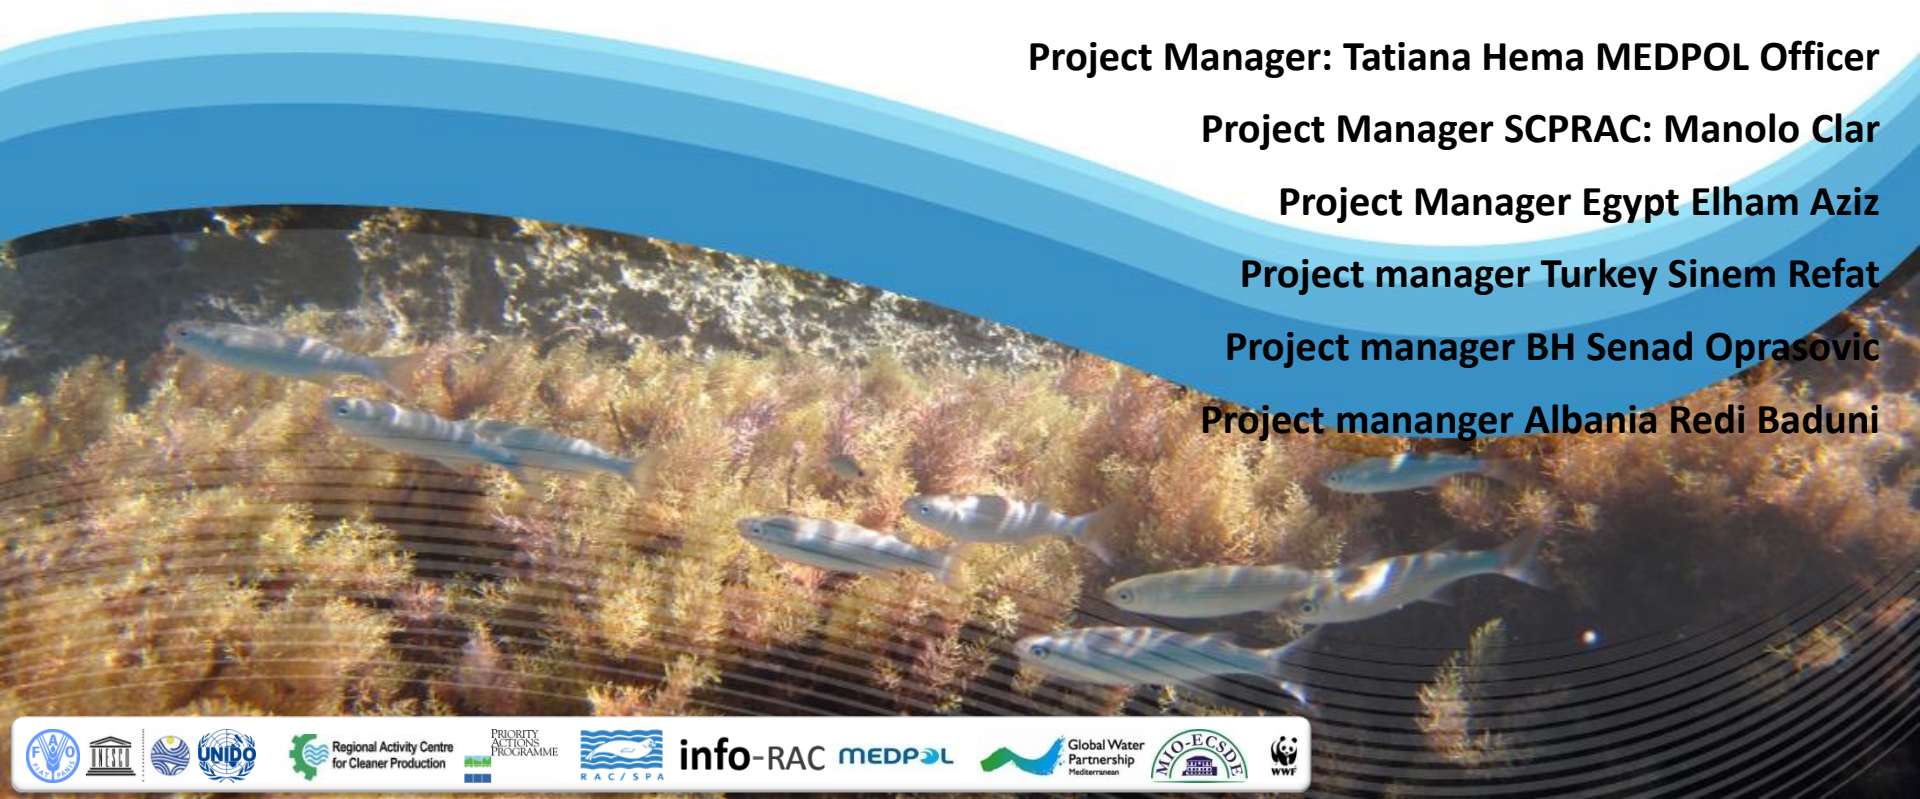

Project Manager SCPRAC: Manolo Clar

Project Manager Egypt Elham Aziz

Project manager Turkey Sinem Refat

Project manager BH Senad Oprasovic

Project manager Albania Redi Baduni

1. Enhance country ownership

1. Support for the establishment of a **National PCBs management team** in four countries;

1. Training and raising awareness

2. Development of 9 awareness and training national and regional **workshops on PCBs management** (theoretical and practical) to provide local capacity and identify countries needs;

A Reliable PCB Inventory

3. Support the PCBs inventory in participating countries:

1. Grant PCBs screeners / analysers;
2. Training on the use of PCBs analyzers;
3. Audit and oil sampling of possible PCBs stakeholders (sites) by a PCB national and international team;
4. Analysis and identification of PCB equipment and liquids.

PCB Disposal

International tender for **packaging, collection and transport for final disposal** of identified PCBs;

Approchim

Disposal and Training:

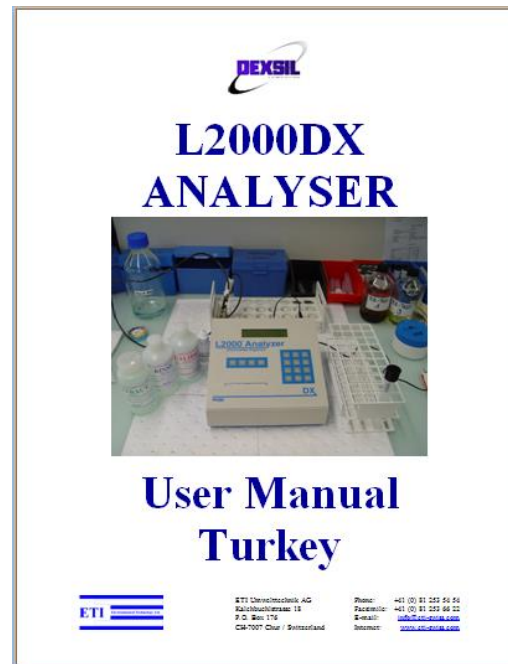

Training of local experts on:

- Notification for export
- Handling
 - Draining of transformers
 - Packing
 - Labelling
 - Loading

Development of PCB awareness and training materials:

- PCB management guide
- PCB toolkit
- PCB brochures
- PCB inventory form
- PCB handouts
- PCB website
- PCB video

- Guide to identify PCBs (trade names)
- List PCB sampling lab material
- Course presentations

Organized by the Ministry of Environment, Forestry and Water Administration of Albania with support from the CPRAC and MEDPOL in the framework of the UNEP Strategic Partnership for the Mediterranean Sea Large Marine Ecosystem (MedPartnership).

PCBs Training workshop in Tirana
January 21st - 24th, 2014

Logos: UNEP, GEF, MEDPOL, Regional Activity Centre for Cleaner Production, Stockholm Convention on persistent organic pollutants (COPs), MedPartnership.

PCB Training Workshop in Alexandria, Egypt
From Monday, Feb. 24th to Thursday, Feb. 27th, 2014, 9.00am - 18.00 pm
Venue theoretical training: Mon, Tues: Royal Tolly Hotel, Alexandria
Venue practical training: Wed, Th: Rakta facility and Royal Tolly Hotel

Logos: UNEP, GEF, Regional Activity Centre for Cleaner Production, Stockholm Convention on persistent organic pollutants (COPs), MedPartnership.

Example of equipment for PCB sampling (for 25 people)

Material	Photo	Units	Items	Unit cost (€)	Cost (subtotal)	Company
Glass bottles		piece 100ml	40	0,72	28,80 EUR	
Stickers		page with 8 or 12 stickers	48	0,2	9,60 EUR	
Carrying box		piece	5	25,5	127,50 EUR	
Gloves, Nitrile, PVC, Neoprene or Rubber		package of 200 pieces	1	12,5	12,50 EUR	

Program	(MedPartnership Project), (Activity 2.3) Aim to introduce environmentally sound management (ESM) to all stages of the 'life-cycle' of electrical equipment containing or contaminated by PCBs in Egypt, Turkey, Syria, Albania and Bosnia & Herzegovina
Subject	Guide to start preliminary identification of PCB's
Project Coordinator	UNEP MAP/ MED POL
	PCB's Mangement expert Panos Ioakimidis
March 2013	EcoTERRA

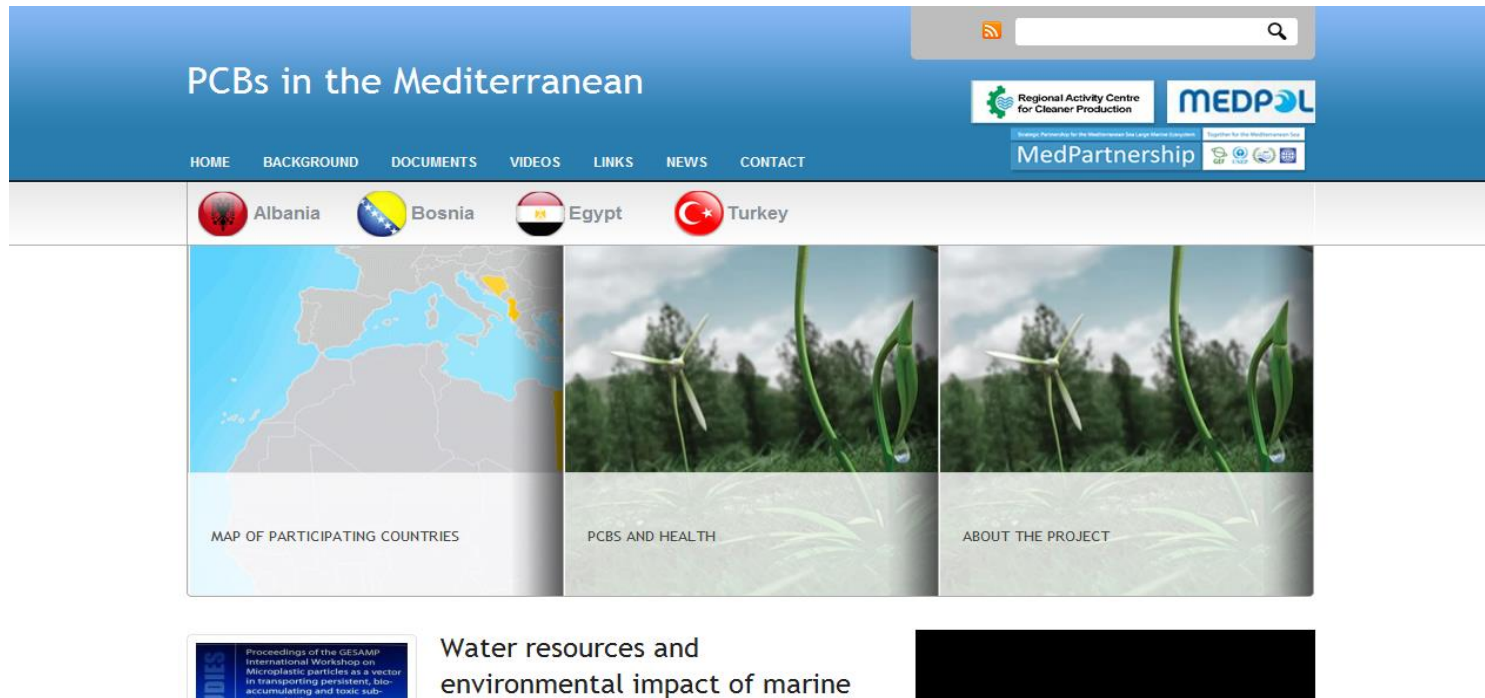

ورشة العمل التدريبية لتأهيل الإدارة المستكملة لتأهيل فنيي مختبر التلوث PCBs
الاستشارية (مصر)، من 24 إلى 27 فبراير 2014

توزيع النسخة الأولى لتأهيل فنيي مختبر التلوث PCBs

PCB awareness video

Achievements

- **12 units delivered** of semimobile L2000DX analyser/screener
- **157** local experts to **audit transformers/ capacitors** and use of L2000DX Analyser;
- **239** local experts on **PCBs management** (theory and practice);
- **41** local experts on **PCB handling**;
- **9** local experts on **import export of PCB** (notification process).
- Up to **950 tons** identified for disposal purposes
- **1 regional guide** on PCB management
- **PCB Factsheets** per each GEF eligible country

- Training on **notification procedure** in Turkey
- Practical **training on packing and exporting** in Turkey
- **Disposal** started in Turkey
- **Notification procedure** started in Bosnia Herzegovina,

Expected outcomes until June 2015

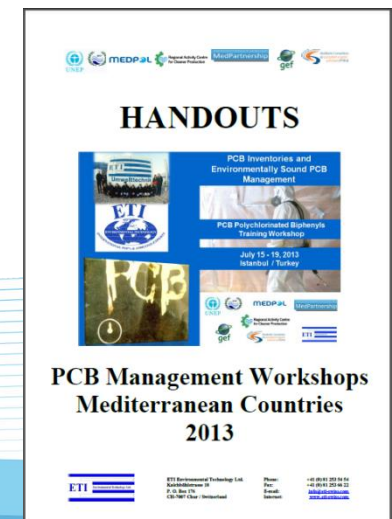

- Conducting Training on notification process and handling In Egypt and Bosnia & Herzegovina
- Continue and finalize the disposal process

Next steps to ensure long-term sustainability of results

PCB training and awareness

Incorporate (disseminate) PCBs awareness materials (PCBs video, PCB brochures, website contents and PCB management guide, etc.) for use in participating countries National POP-PCB awareness program (Ministry's website, awareness and training activities, etc.).

3. Next steps to ensure long-term sustainability of results

3.3 PCB inventory and database

- All countries should develop a **national dynamic database**, with all registered equipment (transformers/capacitors);
- Enter all **input from inventories/** site audits of PCBs equipment **into the national database.**

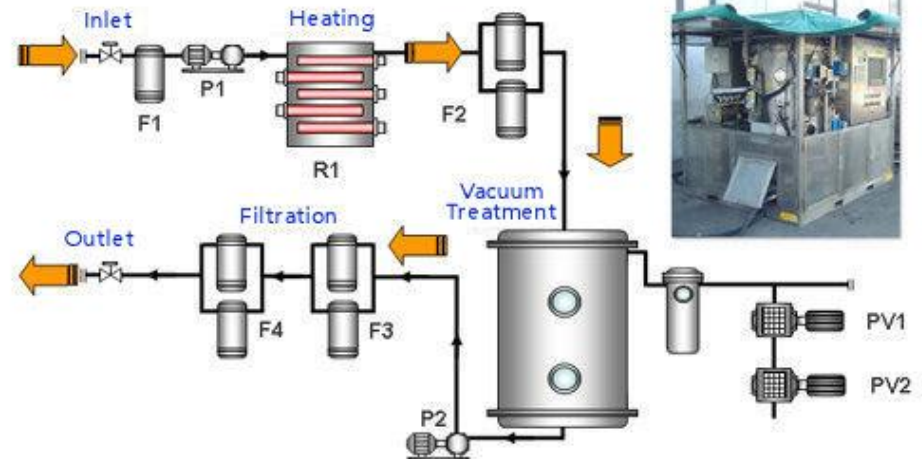

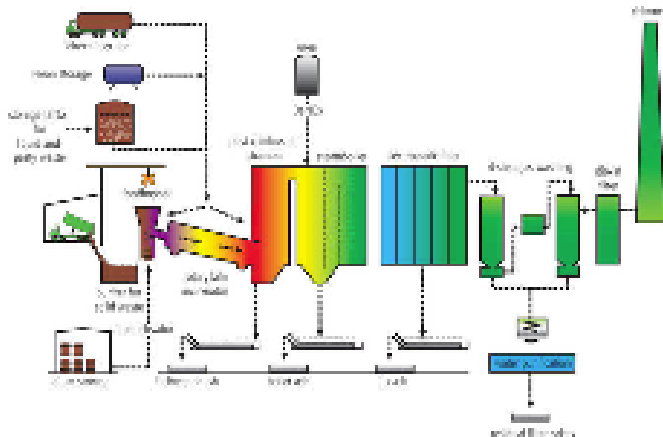

3. Next steps to ensure long-term sustainability of results

Set a **phase-out plan** considering the timeframe set by SAP MED Regional Plans on POPs under the LBS Protocol of the Barcelona Convention (2025) and the Stockholm Convention (2028);

Assure environmentally sound PCBs **disposal methods**.
