Waste crime – waste risks

Runa Opdal Kerr, Chief General Counsel

Chinese authorities inspecting waste sold through trader

The contents exported as green listed waste

Hidden inside the container

Shredded cars imported from EU and US to Thailand

Automotive shredder residue (ASR) from Europe found in Thailand

Melting aluminum in India

Melting aluminum in India

Contaminated cables imported from Scandinavia to Thailand

Recommendations

Business

- Obtain strong control of your downstream waste supply chain
- Demand waste managements companies to document the downstream supply chain all the way to disposal/recycling

Waste management companies

- Ask for written contracts including compliance clauses with your suppliers downstream
- Do an identity check of your partners
- Audit your partners

Recycling organizations

- Combat illegal traffic of waste
- Create business standards that surpasses the legislation in order to be compliant
